2.1 FIELDS OF SPECIALIZATION & PROFESSIONAL CERTIFICATES AWARDED FROM COURSERA ORGANIZATION:

Fields of Specialization	Offered by	Awarded Years	Approximate Time Taken to Complete:-
DevOps and Software Engineering	IBM	26-Feb-23	Six (6) months at 5 hours a week
Verification Link: https://coursera.org/verify/professional-cert/RCFCGMGXJSR3			
Full Stack Software Developer	IBM	26-Mar-23	Eight (8) months at 5 hours a week
Verification Links: https://coursera.org/verify/professional-cert/DSJT26ZUT62			
Database Engineer	Meta	3-Mar-23	Six (6) months at 6 hours a week
Verification Link: https://coursera.org/verify/professional-cert/9WZDHK8ZVJJW			
Web Applications For Everybody	Michigan University		
Verification Link:			
Cyber-Security for Business	Colorado University	25-Aug-22	Five (5) months at 2 hours a week
Verification Link: https://coursera.org/verify/specialization/Y85YZXWMSALE			
Data Science/Engineering/Analyst	IBM		
Verification Link:			
DevOps, Cloud, and Agile Foundations	IBM	7-Jan-23	Two (2) months at 4 hours a week
Verification Link: https://coursera.org/verify/specialization/3K3FHF8SD34S			
Information Security Basics	Ethio Telecom	25-Sep-20	-
Digital Transformation	Ethio Telecom	26-Jun-21	
Software Applications and Networking	Dot-Net-Computer-Tec	10-Feb-18	6 months
Databases Skill: - MySQL, Maria DB, MongoDB, Oracle, and Cloud Computing Services.			
Code, Web, Research & Project Management Tools: Git & GitHub, Zen-hub, SPSS, Terminal, Apache Neat bean, Notepad++, Sublime Text, Python, Jupyter Notebook, spreadsheet /Excel and Power point.			
Computer Programming Languages: - PHP, PYTHON, HTML, CSS, JAVA, JAVA-SCRIPT, SQL, OOP & C/C++ and etc..... and frameworks such as Node.js, React.js and Django.			

3. Experience/Career Profile, Background Skills, Mottos and Research Areas:

Experience: Served as Network Performance Analyst (above Two and half years' experience) and as Advisor in Customer Service/Call Center (two and half years' experience) which means above 5 years' experience (from 2018 GC to Current Year) in telecommunication of Ethio-Telecom.

Skills in Digital Technologies and Engineering	Skills in Businesses and Social sciences
✓ Telecommunications/Electrical Engineering	✓ Business Analysis/Administration
✓ Information System/Technology(IS/IT)	✓ Leadership and Management
✓ Full Stack Web-Based Software Developing	✓ Human Resource Management
✓ Data Science/Data Engineering/Analyst	✓ Advanced Business Research Methods
✓ Communication Engineering	✓ Accounting and Finance
✓ DevOps and Software Engineering	✓ Marketing Research and Customer Services
✓ Cyber-Security & Info-Sec for Businesses	✓ Project Management
Personal Skills and Characteristics	Experience and Achieved Skills
Analytical and Critical Thinker	Database Management System improvement
Job's Mission and Strategies based worker	Information System Integration and Automation
Act as Leader and Manager	Analysis and Synthesis of Business Software Systems
Energetic and Attention to detail	Recommending and Acknowledging alternative explanations/viewpoints for future improvements
Quick understanding	Handling the Out/Inbound customer service's calls
Problem investigator and Analyzer and Right decision maker at final stage.	Troubleshooting/monitoring the system in real time concerning the operational activities of the company's performance and Preparing Reports for Presentation
Flexible, Creative, Innovative, Sociable	Influencing and Motivating Employees and Managers
Ability to do multitask at a time	Regularly Reporting on company's performances
Punctual, Committed, Team Spirit	Preparing proposals and Business plan
Data Scientist, Computer Programmer	Improve the efficiency and effectiveness of company's business/operational activities and to become excellent telecom service.
Software Developer and Tester/Analyst	DevOps Engineering; Enterprise System Analyst
DevOps Engineering; Enterprise System Analyst	
My Motto: The aligned working procedures and human capital with preferred digital system and good leadership and management style is the best way of increasing revenues in money, creating sense of ownership in staff and decreasing high investment of time, energy and cost. I am the CEO of my businesses.	
General Achievements': My MBA Thesis Title: Factors influencing Business Organizations to Revamp and Adopt HRIS; Entrepreneurship and Enterprise Development aligned with Digital Transformation Business Plan; Development and Proposals and Reporting.	

4. APPLICATION LETTER

To**DATE:****Subject: Job Application**

I am certified in BSc degree in Electrical and Computer engineering with the specialization of Communication Engineering from Dire Dewa University. Again I am certified in Masters' degree in Business Administration (MBA) from Rift Valley University. I have completed and awarded in specialized certificates of Cyber-Security for Business, DevOps and Software Engineering, Full Stack Software Developer, Database Engineer, DevOps, Cloud, and Agile Foundations, Web Applications for Everybody, Data Science, System Analyst Information Security Basics, Digital Transformation, Information Security Basics, Electronics and Communication Engineering, and Networking (CCNA & Software Developing).

In my above 5 years' experience (from 2018 GC to Current Year) in telecommunication of Ethio Telecom as Network Performance Analyst and as Advisor in Customer Service on call center, I have acquired multiple tasks of skills in management of various types of company's operations in terms of database management system improvement, information system integration, fraud mitigation techniques, researches and analysis, troubleshooting/monitoring the system in real time concerning the operational activities of the company's performances, preparing proposals, business plans and reporting on company's performances and providing feedback/recommendation for future improvement. **My motto is** the aligned working procedures and human capital with preferred digital system and good leadership and management style is the best way of increasing revenues in money, creating sense of ownership in staff and decreasing high invest of time, energy and cost. I have personal characteristics and leadership skills, including interest in digital economy, attention to detail and quick understand and right decision making skill, organizational skills, flexibility, creativity, sociability, and ability to do multitask at a time and generate innovative ideas. I am the CEO of my businesses. These all gives the company strong values and excellent Telecom service. From now onwards, I want to be share and invest my skills to your objectives and it is my great pleasure and interest to be part of your organization to achieve your stated interest, mission and strategies as you mentioned.

Therefore, if you will give a chance to me to join your esteemed organization; I would like to assure you that I will work to your contentment, fulfillment of your objective and my satisfaction indeed. If I have the opportunity to get the stated Job, I am the CEO of my businesses. For more detail of my academic background, Skills and personal information; I have attached with my CV. I hope that your organization allow me to be part of your personal staff and will be an invaluable asset for your organization. You can contact me any time convenient for you. Thank you for your time and consideration. I look forward to hearing from you.

Yours Sincerely;

Abdulmalik Mama Tefo

5. RECOMMENDATION LETTER

TO WHOM IT MAY CONCERN

It gives me a great pleasure to write this letter of recommendation for my former student Mr. ABDULMALIK MAMA TEFO in Dire Dawa Institute of Technology department of Electrical and Computer Engineering for last five years. I have taught him his more than two courses on which he scored good grades. I found him one of the motivated, hardworking and sociable students of the department. He had also involved in various team works and accomplished his responsibilities with good capacities of working with others. He is polite, disciplined and with no bad habits. He is opened minded and keen to learn and understandable more. He has excellent communication skills and can overcome any difficulty in every circumstance. Thus, giving opportunities to such student is rewarding.

Therefore, I am confident enough to recommended Mr. ABDULMALIK MAMA TEFO for any further research and advanced studies, where He would be able to practically prove his well-fund theoretical knowledge accumulated over the years.

Best regards!

Prof. TAHIR KHAN

6.3 SPECIALIZED CERTIFICATIONS AND SKILLS WITH VERIFICATIONS:

The certificate features a circular seal at the top left with the text "LEARNING WITHOUT LIMITS" and "coursera". Below the seal, it says "PROFESSIONAL CERTIFICATE". A dark blue bar across the middle contains the text "12 Courses". To the right of the bar is the IBM logo. At the bottom, there is a list of 12 completed courses.

12 Courses

- Introduction to Cloud Computing
- Introduction to Web Development with HTML, CSS, JavaScript
- Getting Started with Git and GitHub
- Developing Front-End Apps with React
- Developing Back-End Apps with Node.js and Express
- Python for Data Science, AI & Development
- Python Project for AI & Application Development
- Developing Applications with SQL, Databases, and Django
- Introduction to Containers w/ Docker, Kubernetes & OpenShift
- Application Development using Microservices and Serverless
- Full Stack Cloud Development Capstone Project
- Full Stack Software Developer Assessment

Mar 26, 2023

Abdulmalik Mama Tefo

has successfully completed the online, non-credit Professional Certificate

Rav Ahuja
AI & Data Science
Program Director
IBM Skills Network

IBM Full Stack Software Developer

The earner of this Professional Certificate has completed 10 courses on various Application Development and Cloud technologies and is now equipped with the skills and know how to undertake challenges of Developing Cloud Native Applications. The Certificate earner has hands-on working knowledge with HTML, CSS, JavaScript, GitHub, Node.js, React, Cloud Native practices, DevOps, CI/CD, Containers, Docker, Kubernetes, OpenShift, Python programming, Databases, SQL, NoSQL, Django ORM, Bootstrap, Application Security, Microservices, Serverless computing, and more. The learner has also deployed several applications on cloud, completed a capstone project, and delivered a Software as a Service (SaaS) solution using Cloud Native methodologies.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Feb 26, 2023

Abdulmalik Mama Tefo

has successfully completed the online, non-credit Professional Certificate

Rav Ahuja
Global Program
Director,
Skills Network

IBM DevOps and Software Engineering

In this Professional Certificate, learners developed essential knowledge and skills to perform the many tasks in an entry-level DevOps practitioner role. By completing over a dozen courses and projects in the program, the earner of this Professional Certificate has demonstrated a firm grasp and practical experience to: adopt a DevOps mindset in Software Engineering using Agile and Scrum methodologies and Cloud Native tools and technologies. The holder can develop applications in Python, automate tasks using Shell scripts, use collaborative coding platforms like GitHub, compose applications using Microservices, deploy them using Containers (Docker/Kubernetes/OpenShift) & Serverless technologies; and employ tools for Automation, Continuous Integration (CI) and Continuous Development (CD).

Abdulmalik Mama Tefo

has successfully completed the online, non-credit Specialization

Cybersecurity for Business

In this specialization, learners learned how to apply practical computer security through understanding threats and mitigating those threats. Learners dove into today's data breaches and were able to research how data breaches occur and researched how to better defend their own networks and systems. Finally, learners gained hands-on proactive security skills by examining the penetration testing process and compromising live systems. Learners developed the skills necessary to apply computer security, practically in the workforce.

Abdulmalik Mama Tefo

has successfully completed the online, non-credit Specialization

DevOps, Cloud, and Agile Foundations

In this Specialization, learners developed foundational knowledge in DevOps, including the culture, technology, and skills needed to succeed as a DevOps practitioner. This Specialization also familiarized learners with tools and technologies used by DevOps practitioners. Completers of this Specialization should be able to: Define Cloud Computing and explain its essential characteristics, models, benefits, infrastructure, & emerging trends, and create a cloud account; Describe the DevOps culture, its benefits, and its associated skills, technology, tools, processes, methodologies, and metrics; Explain the Agile philosophy, how to work as an Agile team, and Scrum methodology, including the roles, meetings, rules, and artifacts; and how to write user stories and execute Sprint Plans.
